SUMMARY

As a highly skilled and qualified Layout/JS Developer, I place a strong emphasis on quality over quantity. With a background in SPA development using the React ecosystem, I am constantly striving to improve my skills and stay ahead of the curve.

I have a passion for technology and am dedicated to professional development, always seeking to expand my knowledge and stay up-to-date with the latest advancements. I believe that working as part of a team is key to success, as the collective mind can often produce more innovative and effective solutions than working alone.
